SPORTSMAN'S LODGE

Est. 1945

The town of Ennis is full of rich history, dating back to 1805, when Lewis and Clark entered the Madison Valley. The Madison County was later settled in 1863, following the discover of gold in Alder Gulch. William Ennis, whom the town is named after, is credited with homesteading the area. Originally the town was a draw for its water access, farming potential, and wild game. As a result the settlement continued to spread and provided a draw for ranching, which is still predominant in the area today. The town of Ennis today is just as majestic and beautiful as when it was discovered all those years ago.

The Sportsman's Lodge was the dream of two native Montanans, Otis Crooker and his wife Laura, both born and raised in SW Montana. Otis wae a pilot and during WWII was a flight instructor in the Army/Air Corps and continued this profession after the war, operating from his hangar and the grass airstrip that used to lie just behind the cabins to the west.

During the '50's live gaming (which was technically illegal) flourished in the basement of the Sportsman's Lodge and was a big draw to gamblers and sportsmen alike. Gambling was outlawed in Montana during the '60's but continued, underground in many places.

During the heyday of the Lodge, in those early years, Shell Oil and other large corporate planes would land on th airstrip and bring larg groups of people here for hunting, fishing and gambling. Otis had a dream that sportsmen needed a place to stay when they discovered that the Madison Valley was so rich in recreation. Otis and Laura scraped together enough to add additional land, cabins and even a pool! They were "hands on" owners and worked hard to make the Sportaman's Lodge the premier resort in the Madison Valley and to this day it is known throughout the state and beyond for being THE place to stay, eat and play in the Madison Valley.
